Projects

TOUR & TRAVEL MANAGEMENT SYSTEM

This project is revealed to provide the best travelling assistant to customer and travel agencies. We have developed travel and tour management system to render a found stage where tourist can find their tourist places according to their likes.

this system will present to connect directly client and agents with in the internet.It provide facility to change and delete traveler data as well as client data. It implement a feedback tool for travellers.

we are inspired from the various sort of tour website likeTripAdvisor, trip.com, tripBD.com etc.we are trying to provide same comfort like above application in an affordable price.
